EDITORIAL
Fluoride and intelligence ................................................................. 49

ANNOUNCEMENT
Third international workshop on fluorosis and defluoridation of water.............. 53
First announcement: XXIVth ISFR conference........................................... 53-54

RESEARCH REPORTS/REVIEW
Algal and cyanobacterial responses to fluoride
Monica Bhatnagar, Ashish Bhatnagar. Ajmer (Rajasthan), India...................... 55-65

A clinical and biochemical study of chronic fluoride toxicity in children of Kheru
Thanda of Gulbarga district, Karnataka, India
AR Shivashankara, YM Shivaraja Shankara, S Hanumanth Rao,
P Gopalakrishna Bhat. Karnataka, India...................................................... 66-73

Effect of high-fluoride water on intelligence in children
Y Lu, ZR Sun, LN Wu, X Wang, W Lu, SS Liu. Tianjin, China....................... 74-78

Reproductive toxic effects of ingestion of sodium fluoride in female rats
Ahmad S Al-Hiyasat, Ahmed M Elbetieha, Homa Darmani. Irbid, Jordan...... 79-84

HEALTH/BIOLOGICAL EFFECTS ................................................................. 85-89
Increased incidence of spina bifida occulta in fluorosis prone areas
Gupta SK, Gupta RC, Seth AK, Chaturvedi CS............................................. 85

Fluoride-induced ultrastructural changes in exocrine pancreas
cells of rats: fluoride disrupts the export of zymogens from
the rough endoplasmic reticulum
Matsuo S, Nakagawa H, Kiyomiya K, Kurebe ............................................. 85-86

Fluoride in drinking water and cancer mortality in Taiwan
Yang CY, Cheng MF, Tsai SS, Hung CF .................................................... 86
Dental caries and fluorosis prevalence study in a nonfluoridated Brazilian community: trend analysis and toothpaste association
   Pereira AC, Da Cunha FL, Meneghim M de C, Werner CW .......................... 86-87

In vitro effects of sodium fluoride and sodium dichromate on dynamic properties of human erythrocyte membrane
   Korkmaz O ........................................................................................................ 87

Some factors associated with the caries decline among Norwegian children and adolescents: age-specific and cohort analyses
   Birkeland JM, Haugejorden O, von der Fehr FR ........................................... 88

Water treatment with silicofluorides and lead toxicity
   Masters RD, Coplan MJ .................................................................................. 88-89

**Dietary Fluoride** ......................................................................................... 89-91
Total fluoride intake and urinary excretion in 4-year-old Iranian children residing in low-fluoride areas
   Zohouri FV, Rugg-Gunn AJ .......................................................................... 89-90

Fluoride content in Khat (Catha edulis) chewing leaves
   Hattab FN, Angmar-Mansson B ...................................................................... 90

Urinary fluoride excretion by children 4-6 years old in a south Texas community
   Baez RJ, Baez MX, Marthaler TM .................................................................. 90-91

Weaning food and magadi associated with dental fluorosis in Northern Tanzania
   Awadia AK, Bjorvatn K, Birkeland JM, Haugejorden O ............................... 91

**Environmental Effects** ............................................................................ 92-95
The fluoride content of antlers as an indicator of fluoride exposure in red deer (Cervus elaphus): A historical biomonitoring study
   Kierdorf U, Kierdorf H .................................................................................. 92

Personal fluoride and solvent exposures, and their determinants, in semiconductor manufacturing
   Woskie SR, Hammond SK, Hines CJ, Hallock MF, Kenyon E, Schenker MB . 92-93

Structure and mineralisation density of antler and pedicle bone in red deer (Cervus elaphus L.) exposed to different levels of environmental fluoride: a quantitative backscattered electron imaging study
   Kierdorf U, Kierdorf H, Boyde A .................................................................... 93-94

Sulfur hexafluoride: global environmental effects and toxic byproduct formation
   Dervos CT, Vassiliou P .................................................................................. 94

Urinary fluoride as an exposure index in aluminum smelting

**Biochemical Effects** .................................................................................. 95-98
Ontogeny of G-protein expression: control by beta-adrenoceptors
   Zeiders JL, Seidler FJ, Slotkin TA ................................................................... 95-96
Two different mechanisms for activation of cyclic PIP synthase: by a G protein or by protein tyrosine phosphorylation
Wasner HK, Gebel M, Hucken S, Schaefer M, Kincses M ..............................96-97

Predominant contribution of the G protein-mediated mechanism to NaF-induced vascular contractions in diabetic rats: association with an increased level of G(qalpha) expression
Hattori Y, Matsuda N, Sato A, Watanuki S, Tomioka H, Kawasaki H, Kanno M ... 97

Fluoride effect on the activity of enamel matrix proteinases in vitro
Gerlach RF, de Souza AP, Cury JA, Line SR........................................................ 98

CORRECTION

DISCUSSION
Letter to Editor. Fluoride and autism: is there a connection? Rookard CJ.............99-100
INTERNATIONAL SOCIETY FOR FLUORIDE RESEARCH

Officers and Board for 2000

President:
Professor Zygmunt Machoy, Pomeranian Medical Academy, Szczecin, Poland

Vice President:
Professor Koichi Kono, Osaka Medical College, Osaka, Japan

Second Vice President:
Professor N J Chinoy, Gujarat University, Ahmedabad, India

Secretary:
Professor Emeritus Gene W Miller, Utah State University

Treasurer:
Dr Bruce Spittle, University of Otago Medical School, Dunedin, New Zealand

Editorial Board:
Dr DJ Ballentyne, University of Victoria, Victoria, BC, Canada
Dr Miklos Bély, National Institute of Rheumatology, Budapest, Hungary
Dr AW Burgstahler, Professor Emeritus, University of Kansas, Lawrence, KS, USA
Prof Shouren Cao, Chinese Academy of Preventive Medicine, Beijing, China
Dr M Chikuma, Osaka University of Pharmaceutical Sciences, Osaka, Japan
Prof NJ Chinoy, Gujarat University, Ahmedabad, India
Dr Edward Czerwinski, Kraków Academy of Medicine, Kraków, Poland
Prof Mark Diesendorf, University of Technology, Sydney, NSW, Australia
Dr Richard G Foulkes, Abbotsford, BC, Canada
Prof J Franke, Heinrich Mann Hospital, Bad Liebenstein, Germany
Prof G Neil Jenkins, Newcastle-upon-Tyne, England, UK
Prof Rongdi Ji, Chinese Academy of Preventive Medicine, Beijing, China
Prof K Kono, Osaka Medical College, Osaka, Japan
Prof Jerzy Krechniak, Medical University, Gdański, Poland
Dr KAVR Krishnamachari, National Institute of Nutrition, Hyderabad, India
Dr Lennart Krook, Professor Emeritus, Cornell University, Ithaca, NY, USA
Dr John R Lee, 9620 Bodega Hwy, Sebastopol, CA, USA
Prof C James Lovelace, Humbolt State University, Arcata, CA, USA
Dr Zygmunt Machoy, Pomeranian Medical Academy, Szczecin, Poland
Dr GW Miller, Professor Emeritus, Utah State University, Logan, UT, USA
Prof F Murray, Murdoch University, Murdoch, WA, Australia
Dr James C Pushnik, California State University, Chico, CA, USA
Dr BP Rajan, Madras Dental College, Madras, India
Dr Bruce Spittle, University of Otago Medical School, Dunedin, New Zealand
Dr Jörg Spitz, Dept. of Nuclear Medicine, Wiesbaden, Germany
Prof Guifan Sun, China Medical University, Shenyang, China
Prof AK Susheela, Fluorosis Res & Rural Develop Foundation, New Delhi, India
Prof SPS Teotia, LLRM Medical College, Meerut, India
Prof H Tsunoda, Iwate Medical University, Morioka, Japan
Prof Zan-Dao Wei, Guiyang Medical College, Guizhou, China
Dr Sally Wheeler, Hawkesbury Agricultural Res. Unit, Richmond, NSW, Australia
Prof Y Yoshida, Osaka Medical College, Osaka, Japan
Prof NBK Yoshitake, Shiga University of Medical Science, Shiga-Ken, Japan
Prof Ming-Ho Yu, Western Washington University, Bellingham, WA, USA
**FLUORIDE**, official journal of the International Society for Fluoride Research (ISFR), publishes quarterly reports on biological, chemical, ecological, industrial, toxicological and clinical aspects of inorganic and organic fluoride compounds. The International Standard Serial Number (ISSN) is 0015-4725.

**SUBSCRIPTION**: US $50 (or equivalent in British £ or Japan ¥) per year in advance. Send to ISFR Treasurer: Dr. B. Spittle, 17 Pioneer Crescent, Dunedin 9001, NZ.

**COPIES** of articles in *Fluoride* are available from:
University Microfilms International, Box 91, Ann Arbor, MI 48106, USA.
Institute for Scientific Information, 3501 Market St., Philadelphia, PA 19104, USA.
BIOSIS, c/o Advanced Information Consultants, Box 87127, Canton, MI 48187, USA.
The UnCover Company, 3801 E. Florida, Suite 200, Denver, CO 80210, USA.

**MANUSCRIPTS**, including papers presented at ISFR conferences, are accepted for publication after appropriate evaluation and recommendation by qualified reviewers. Send to Dr AW Burgstahler, Editor, *Fluoride*, 1620 Massachusetts Street, Lawrence, KS 66044-4254, USA. Fax (USA) 785-843-0736. The following instructions apply to original research reports. Research reviews and discussion papers, with appropriate variations in format, may also be accepted.

**INSTRUCTIONS TO AUTHORS**
The submitted paper, with a copy, should be written concisely in English. Either American or British spelling is accepted. Measures should be in metric system. Double space with generous margins. A computer disk should accompany the paper after it has been accepted for publication. It should contain the text, charts, tables, graphics, and the editor's suggestions for revisions.

**Title**: A concise but informative title should be followed by name(s) of the author(s). The address where the research was carried out, and for correspondence, should appear at the bottom of the first page.

**Summary**: Begin with a brief factual summary.

**Key words**: List (in alphabetical order) the major themes or subjects.

**Introduction**: State the reason for the work with a brief review of previous work on the subject.

**Materials and Methods**: Condense. However, if the methodology is new or developed by the author(s) it can be more detailed.

**Results**: List the direct conclusions of the work.

**Discussion**: Deal with general conclusions, referring to other work on the subject. In short papers, Results and Discussion may be combined.

**Abbreviations or Acronyms**: Define, either in brackets or in footnotes, when they first appear.

**Acknowledgments**: Keep brief. They may include funding source, technical assistance, text editing and useful comments.

**References**: References are identified by superscripted numbers in the order in which they first appear in accordance with the uniform requirements for manuscripts submitted to biomedical journals. These are described in: International Committee of Medical Journal Editors. Uniform requirements for manuscripts submitted to biomedical journals [special report]. *N Engl J Med* 1997;336:309-15.

**Membership**: Researchers are invited to join ISFR. Applications for membership should be sent to the Secretary: Dr Gene W Miller, Box 725 Logan, UT 84321, USA. The membership fee is US $40 a year, which includes subscription to the journal. This reduced subscription rate is also available, on application to the Treasurer, to individuals who support the Society's aims.
