EDITORIAL REVIEW
Fluoridation in China: a clouded future
Zan-dao Wei, Yan Wei. Guizhou, China .............................................................. 1-4

CONFERENCE ANNOUNCEMENT
XXVth Conference of the International Society for Fluoride Research .............. 5-11

RESEARCH REPORTS
Histological changes in the brain of young fluoride-intoxicated rats
YM Shivarajashankara, AR Shivashankara, P Gopalakrishna Bhat, S Muddanna Rao, S Hanumanth Rao. Karnataka, India .......................................................... 12-21
A passive dosimeter for evaluating exposure to hydrogen fluoride
W Czarnowski, B Wielgomas, J Krechniak. Gdańsk, Poland ..........................22-27
Histopathological effects of sodium fluoride on the duodenum of rabbit
A Shashi. Patiala, India ...................................................................................28-37
Toxic effects of fluoride on rabbit kidney
A Shashi, JP Singh, SP Thapar. Patiala, India ................................................ 38-50
Effect of high fluoride and low protein on tooth matrix development in goats
Jundong Wang, Jianhua Hong, Junping Li, Yuhong Guo, Jianfeng Zhang, Junhu Hao. Shanxi, China .................................................................51-55

ABSTRACTS ...................................................................................................... 56-66

HEALTH/BIOLOGICAL EFFECTS
Reassessment of the role of aluminum in the development of Alzheimer's disease
Strunecká A, Patočka J. ..................................................................................... 56
Some observations on endemic fluorosis in domestic animals in Southern Rajasthan (India)
Choubisa SL...................................................................................................56-57

Prevalence and distribution pattern of enamel fluorosis in Langtang town, Nigeria
Wongdem JG, Aderinokun GA, Sridhar MK, Seikur S.................................57

Has the level of dental fluorosis among Toronto children changed?
Leake J, Goettler F, Stahl-Quinlan B, Stewart H................................................. 58

A community-based caries control program for pre-school children using topical fluorides: 18-month results
Lo EC, Chu CH, Lin HC................................................................................58-59

Current concept on the anticaries fluoride mechanism of the action
Rosin-Grget K, Lincir I......................................................................................... 59

Fluoride modifies adhesion of Streptococcus pyogenes
Cao J, Doyle RJ.................................................................................................... 60

Effect of tamarind ingestion on fluoride excretion in humans
Khandare AL, Rao GS, Lakshmaiah N................................................................. 60

New recommendations concerning the fluoride content of toddler toothpaste - consequences for systemic application of fluoride
Konig KG. ............................................................................................................. 61

BIOCHEMICAL EFFECTS

Does sevoflurane inhibit serum cholinesterase in children?
Lejus C, Delaroche O, Le Roux C, Legendre E, Rivault O,
Floch H, Renaudin M, Pinaud M........................................................................... 62

DIETARY FLUORIDE

Bioavailability of fluoride in humans from commonly consumed diets in India
Goyal A, Gauba K, Tewari A. .............................................................................. 62-63

Total fluoride intake and urinary excretion in German children aged 3-6 years
Haftenberger M, Viergutz G, Neumeister V, Hetzer G............................. 63

Fluoride intake by children from water and dentifrice
Lima YB, Cury JA. ...........................................................................................63-64

ENVIRONMENTAL FLUORIDE POLLUTION

Speciation of aluminum in rainwater using a fluoride ion-selective electrode and ion-exchange chromatography with fluorometric detection of the aluminum-lumogallion complex
Hara H, Kobayashi H, Maeda M, Ueno A, Kobayashi Y..................................64-65

Dynamics of aluminum speciation in forest-well drainage waters from the Rhode River watershed, Maryland
Bi SP, An SQ, Yang M, Chen T................................................................. 65
Assessing regional variation of environmental fluoride concentrations in western Germany by analysis of antler fluoride content in roe deer (*Capreolus capreolus*)

Kierdorf U, Kierdorf H. ..................................................................................... 65-66

CORRECTION ..................................................................................................... 66

SUBMITTING MANUSCRIPTS

Guidelines for authors – revised February 2002 ............................................. 67-72

FLUORIDE is the official journal of the International Society for Fluoride Research (ISFR). The ISFR publishes quarterly scientific reports on biological, chemical, ecological, industrial, toxicological, and clinical aspects of inorganic and organic fluoride compounds. The International Standard Serial Number (ISSN) is 0015-4725.

SUBSCRIPTION for the year 2002 is payable in advance: US$40, UK£25, ¥4000, or Euro40, with a subscription agency discount of 12.5%. For residents of Australia and New Zealand only, A$40 and NZ$40, respectively. Send to ISFR Treasurer: Dr Bruce Spittle, 727 Brighton Road, Ocean View, Dunedin 9051, New Zealand.

Because of the difficulties experienced by some members and subscribers in transferring money due to high bank charges, we have arranged to receive payments also by Visa and Mastercard through PayPal, which enables money to be sent to anyone with an email address in a secure way. It is necessary to first register with PayPal at http://paypal.com/. The recipient email address to which the payment should be sent must be typed accurately and is spittle@es.co.nz

ONLINE ACCESS (http://www.fluoride-journal.com) is free of charge. However, to accommodate a more compact file size for the Internet, photos and charts are not available online, and reproduction of research papers onsite are low-resolution. A subscription to Fluoride is therefore encouraged.

COPIES of articles in Fluoride are available from:
University Microfilms International, Box 91, Ann Arbor, MI 48106, USA.
Institute for Scientific Information, 3501 Market St., Philadelphia, PA 19104, USA.
BIOSIS, c/o Advanced Information Consultants, Box 87127, Canton, MI 48187, USA.
The UnCover Company, 3801 E. Florida, Suite 200, Denver, CO 80210, USA.

MANUSCRIPTS, including papers presented at ISFR conferences, are accepted for publication after appropriate evaluation and recommendation by qualified reviewers. Send or (preferably) email manuscripts (as Word attachments) to Prof AW Burgstahler, Editor, Fluoride, 1620 Massachusetts Street, Lawrence, KS 66044-4254, USA (E-mail: awburg@ku.edu). For more detailed instructions for submitting papers, please visit our website http://www.fluoride-journal.com/papers.htm or refer to Fluoride 2002;35(1):67-72.

The following instructions apply to original research reports. Research reviews and discussion papers, with appropriate variations in format, are also invited.

INSTRUCTIONS TO AUTHORS:
The following is only a brief summary. For detailed instructions, see Guidelines for Authors in the February 2002 issue of Fluoride 35(1), pages 67-72. Two copies of an initial version of the manuscript typed according to these guidelines, double space throughout with wide margins, should be submitted (without a computer disc), or the manuscript may be sent by email (as a Word attachment) to the Editor, Prof Albert W Burgstahler, at the address given above.

MEMBERSHIP: Researchers and others interested in fluoride research are invited to join the ISFR. Applications for membership should be sent to the Secretary: Professor Emeritus Gene W Miller, P.O. Box 725, Logan, UT 84321-0725, USA (E-mail: plants@baicor.com). For the year 2002 the membership fee, which includes subscription to the journal, is the same as the subscription schedule above.
