### CUMULATIVE SUBJECT INDEX 1968-2002 ..... 303-357

Part 1 of this two-part issue of Vol. 35, No. 4, has the Cumulative Author Index 1968-2002, along with a 14-page guest editorial survey, *Thirty-five Years of Fluoride*, by Dr Richard G Foulkes. Here, in Part 2, is the Cumulative Subject Index 1968-2002 of *Fluoride* covering the entire 35-year span of its publication through 2002.

To make this cumulative subject index as useful as possible, our copy editor, Elke Babiuk, has gone to a great deal of extra effort to expand and correct the coverage of the annual subject index entries. This index is therefore not simply a compilation of the annual subject indexes. It includes a considerably augmented and reorganized version of many of the entries in the annual listings, thereby providing easier access to subjects and topics along with extensive cross referencing.

This work has required far more time than anticipated, but our readers and authors will no doubt find it extremely valuable and useful to have such a comprehensive and detailed subject index available. We apologize for this delay in its appearance.
