# CONTENTS

## BOOK REVIEW EDITORIAL

When smoke ran like water  
Paul Connett................................................................. 1-7

## CONFERENCE REPORTS

Report on the XXVth ISFR Conference  
Bruce Spittle ............................................................... 8-11

Fluorine research on the verge of the third millennium  
Dariusz Chlubek .......................................................... 12-13

## CONFERENCE ANNOUNCEMENT

Fourth International Workshop on Fluorosis Prevention and Defluoridation of Water ........................................ 14-15

## RESEARCH REPORTS

Determination of fluoride in soft tissues  
I Inkielewicz, W Czarnowski, J Krechniak. Gdańsk, Poland .................................................. 16-20

Fluoride in common reeds (*Phragmites australis*) sampled from the old Warta reservoirs near Luboń and Radzewice, Poland  
Maria Jezierska-Madziar, Piotr Pińskwar. Poznań, Poland .................................................. 21-24

Oxidative stress from fluoride-induced hepatotoxicity in rats  
Xiao-ying Guo, Gui-fan Sun, Ying-chun Sun. Shenyang, China .................................................. 25-29

*In vivo* studies concerning toxic effects of sodium fluoride on hepatic function in rabbits  
A Shashi. Patiala, India .................................................. 30-37

Fluoride levels in different drinking water sources in Bangladesh  
AKM Fazlul Hoque, M Khaliquzzaman, MD Hossain, AH Khan. Dhaka, Bangladesh .................................................. 38-44

## ABSTRACTS

................................................................. 45-69

## BIOCHEMICAL EFFECTS

Mechanisms of sodium fluoride-induced endothelial cell barrier dysfunction: role of MLC phosphorylation  
Effects of selenium and fluoride on apoptosis and lipid peroxidation in human hepatocytes
Wang A, Xia T, Ran P, Bai Y, Yang K, Chen X ...............................................45-46

Fluoride plus aluminum: useful tools in laboratory investigations, but messengers of false information
Strunecka A, Strunecky O, Patocka J ................................................................. 46

Sodium fluoride-induced hypoproteinemia and hypoglycemia in parental and F(1)-generation rats and amelioration by vitamins
Verma RJ, Guna Sherlin DM ...........................................................................46-47

DIETARY FLUORIDE
Fluoride exposure of East African consumers using alkaline salt deposits known as magadi (trona) as a food preparation aid
Nielsen JM, Daňi E ..........................................................................................47-48

The fluoride content of foods and beverages from negligibly and optimally fluoridated communities
Jackson RD, Brizendine EJ, Kelly SA, Hinesley R, Stookey GK, Dunipace AJ ................................................................. 48

Fluoride intake in Japanese children aged 3-5 years by the duplicate-diet technique
Murakami T, Narita N, Nakagaki H, Shibata T, Robinson C................................. 49

Fluoride intake in children living in a high-fluoride area in Ethiopia – intake through beverages
Malde MK, Zerihun L, Julshamn K, Bjorvatn K................................................49-50

Fluoride concentrations in three types of commercially packed tea drinks in Taiwan
Lung SC, Hsiao PK, Chiang KM ......................................................................50-51

Fluoride in the environment and brick-tea-type fluorosis in Tibet
Cao J, Zhao Y, Liu J ............................................................................................. 51

Brick tea fluoride as a main source of adult fluorosis

EFFECTS ON TEETH
Caries occurrence in a fluoridated and a non-fluoridated town in Finland: a retrospective study using longitudinal data from public dental records
Seppä L, Hausen H, Karkkainen S, Larmas M .....................................................52-53

A randomised controlled trial of the effectiveness of providing free fluoride toothpaste from the age of 12 months on reducing caries in 5-6-year old children
Davies GM, Worthington HV, Ellwood RP, Bentley EM, Blinkhorn AS, Taylor GO, Davies RM .................................................................53-54

Blood lead level and dental caries in school-age children

An epidemiological profile of dental caries in 12-year-old children residing in cities with and without fluoridated water supply in the central western area of the State of Sao Paulo, Brazil
Sales-Peres SH, Bastos JR .................................................................55
Fluorosis development in seven age cohorts after an 11-month break in water fluoridation
Burt BA, Keels MA, Heller KE ................................................................. 55-56

Degree of fluorosis in areas of South Africa with differing levels of fluoride in drinking water
Louw AJ, Grobler SR, van W Kotze TJ ...................................................... 56

ENVIRONMENTAL FLUORIDE
Defluoridation of drinking water by boiling with brushite and calcite
Larsen MJ, Pearce EI .................................................................................. 56-57

Environmental impacts on health from continuous volcanic activity at Yasur (Tanna) and Ambrym, Vanuatu
Cronin SJ, Sharp DS ................................................................................... 57-58

A map of natural fluoride in drinking water in Pakistan
Ayyaz AK, Whelton H, O’Mullane D .......................................................... 58

Study on fluoride emission from soils at high temperature related to brick-making process
Xie ZM, Wu WH, Xu JM ............................................................................. 58-59

Study on the regeneration methods of the synthetic hydroxy-apatite as a material for defluoridation of drinking water
Ying B, Li X, Cong Z .................................................................................. 59

Fluoride toxicity to aquatic organisms: a review
Camargo JA .................................................................................................. 59-60

Safety threshold of fluorine in endemic fluorosis regions in China
Li Y, Wang W, Hou S .................................................................................. 60

Manufacture of hydroxyapatite as a defluoridator and the mechanism of defluoridation for drinking water
Li X, Zheng D, Ying B ................................................................................ 60-61

HEALTH/TOXIC EFFECTS IN ANIMALS
Toxic effects of various water pollutants on structural and functional parameters of hepatocytes
Karimov KhIa, Inoiatova FKh, Inoiatov FSH .................................................. 61

Testicular toxicity in sodium fluoride treated rats: association with oxidative stress
Ghosh D, Das Sarkar S, Maiti R, Jana D, Das UB ......................................... 61-62

Fluoride concentrations in thoroughbred horses in India
Dwivedi SK, Dey S ...................................................................................... 62

Chronic fluoride toxicity decreases the number of nicotinic acetylcholine receptors in rat brain

Effects of selenium and zinc on rat renal apoptosis and change of cell cycle induced by fluoride
Yu R, Xia T, Wang A, Chen X ....................................................................... 63

Studies on DNA damage and apoptosis in rat brain induced by fluoride
Chen J, Chen X, Yang K, Xia T, Xie H .......................................................... 64
HEALTH/TOXIC EFFECTS IN HUMANS
Fluoride overfeed at a well site near an elementary school in Michigan
Sidhu KS, Kimmer RO. 64-65

Endemic fluorosis in Rajasthan
Choubisa SL, Choubisa L, Choubisa DK. 65

Fluoride excretion in children after sevoflurane anaesthesia
Lejus C, Le Roux C, Legendre E, Renaudin M, Botteau HL, Pinaud M. 66

Reversal of fluoride induced cell injury through elimination of fluoride and consumption of diet rich in essential nutrients and antioxidants
Susheela AK, Bhatnagar M. 66-67

Human exposure to hydrogen fluoride induces acute neutrophilic, eicosanoid, and antioxidant changes in nasal lavage fluid
Lund K, Refsnes M, Ramis I, Dunster C, Boe J, Schwarze PE, Skovlund E, Kelly FJ, Kongerud J. 67

Prolonged respiratory symptoms caused by thermal degradation products of freons
Pirila P, Espo T, Pfaffli P, Riihimaki V, Wolff H, Nordman H. 68

Hemodialyzability of ionizable fluoride in hemodialysis session

XXVTH ISFR CONFERENCE ABSTRACTS
Water fluoride concentration and dental fluorosis prevalence in a north-western arid region of Mexico
Sandra Rodriguez-Dozal, M Teresa Alarcón-Herrera, Enrique-Cifuentes, Luz Helena Sanin, Albino Barraza. 70

Arthritis in America
Wilson B. 70-71

Defluoridation of brick-tea with serpentine

Fluoride effects on thyroid function
Schuld A. 72

SUBMITTING MANUSCRIPTS TO FLUORIDE
Guidelines for authors – revised February 2003. 73-78
President:
Professor Koichi Kono, Osaka Medical College, Osaka, Japan

Vice President:
Professor Emeritus NJ Chinoy, Gujarat University, Ahmedabad, India

Second Vice President:
Professor Jörg Spitz, Department of Nuclear Medicine, Wiesbaden, Germany

Secretary:
Professor Emeritus Ming-Ho Yu, Western Washington University, Bellingham, WA, USA

Treasurer:
Dr Bruce Spittle, University of Otago Medical School, Dunedin, New Zealand

Editorial Board:
Dr Miklos Bély, Hungarian Academy of Science, Budapest, Hungary
Prof Emeritus AW Burgstahler, University of Kansas, Lawrence, KS, USA
Prof Shouren Cao, Chinese Academy of Preventive Medicine, Beijing, China
Prof Masahiko Chikuma, Osaka University of Pharmaceutical Sciences, Osaka, Japan
Prof Emeritus NJ Chinoy, Gujarat University, Ahmedabad, India
Prof Edward Czerwinski, Jagiellonian University, Kraków, Poland
Dr Mark Diesendorf, Sustainability Centre, Box 221, Epping, NSW 1710, Australia
Dr Richard G Foulkes, Abbotsford, BC, Canada
Prof J Frank, Heinrich Mann Hospital, Bad Liebenstein, Germany
Prof Emeritus G Neil Jenkins, Newcastle-upon-Tyne, England, UK
Prof K Kono, Osaka Medical College, Osaka, Japan
Prof Jerzy Krechniak, Medical University, Gdańsk, Poland
Dr KAVR Krishnamachari, National Institute of Nutrition, Hyderabad, India
Prof Emeritus Lennart Krook, Professor Emeritus, Cornell University, Ithaca, NY, USA
Dr John R Lee, 9620 Bodega Hwy, Sebastopol, CA, USA
Prof Hardy Limeback, University of Toronto, Toronto, ON, Canada
Prof Emeritus C James Lovelace, Humbolt State University, Arcata, CA, USA
Dr Boguslaw Machalinski, Pomeranian Academy of Medicine, Szczecin, Poland.
Prof Emeritus Zygmunt Machoy, Pomeranian Medical Academy, Szczecin, Poland
Prof Emeritus Gene W Miller, Utah State University, Logan, UT, USA
Prof F Murray, Murdoch University, Murdoch, WA, Australia
Prof Masayuki Okazaki, Hiroshima University, Hiroshima, Japan
Dr James C Pushnik, California State University, Chico, CA, USA
Dr BP Rajan, Madras Dental College, Madras, India
Dr Bruce Spittle, University of Otago Medical School, Dunedin, New Zealand
Prof Jörg Spitz, Dept. of Nuclear Medicine, Wiesbaden, Germany
Prof Anna Strunecká, Charles University, Prague, Czech Republic
Prof Guifan Sun, China Medical University, Shenyang, China
Prof Emeritus AK Susheela, Fluorosis Res & Rural Develop Foundation, New Delhi, India
Prof Emeritus SPS Teotia, Institute of Higher Medical Sciences, Whitefield, India
Prof Emeritus H Tsunoda, Iwate Medical University, Morioka, Japan
Prof Emeritus Zan-Dao Wei, Guiyang Medical College, Guizhou, China
Prof Emeritus Y Yoshida, Osaka Medical College, Osaka, Japan
Prof Emeritus NBK Yoshitake, Shiga University of Medical Science, Otsu, Japan
Prof Emeritus Ming-Ho Yu, Western Washington University, Bellingham, WA, USA
FLUORIDE is the official journal of the International Society for Fluoride Research (ISFR). The ISFR publishes quarterly scientific reports on biological, chemical, ecological, industrial, toxicological, and clinical aspects of inorganic and organic fluoride compounds. The International Standard Serial Number (ISSN) is 0015-4725.

SUBSCRIPTION for the year 2003 is payable in advance: US$40, UK£25, ¥4000, or Euro40, with a subscription agency discount of 12.5%. For subscribers in Australia and New Zealand only, A$40 and NZ$40, respectively with an increase in 2004 to A$45 and NZ$45. Send to ISFR Treasurer: Dr Bruce Spittle, 727 Brighton Road, Ocean View, Dunedin 9051, New Zealand.

Because of the difficulties experienced by some members and subscribers in transferring money due to high bank charges, we have arranged to receive payments also by Visa and Mastercard through PayPal, which enables money to be sent to anyone with an email address in a secure way. It is necessary to first register with PayPal at http://paypal.com/. The recipient email address to which the payment should be sent must be typed accurately and is spittle@es.co.nz.

Complimentary copies are provided to abstracting services and where there is a statutory requirement. Donors wishing to fund gift subscriptions are invited to contact the ISFR Treasurer.

ONLINE ACCESS (http://www.fluoride-journal.com) is free of charge. However, to accommodate a more compact file size for the Internet, photos and charts are not available online, and reproduction of research papers onsite are low-resolution. A subscription to Fluoride is therefore encouraged.

COPIES of articles in Fluoride are available from:
University Microfilms International, Box 91, Ann Arbor, MI 48106, USA.
Institute for Scientific Information, 3501 Market St., Philadelphia, PA 19104, USA.
BIOSIS, c/- Advanced Information Consultants, Box 87127, Canton, MI 48187, USA.
The UnCover Company, 3801 E. Florida, Suite 200, Denver, CO 80210, USA.

Copies of articles and back copies of Fluoride may also be ordered directly through the Managing Editor, Dr Spittle (spittle@es.co.nz). For articles: US$2, or equivalent, per article for a scanned copy sent by email or US$5, including postage, for a posted photocopy; back copies: US$10, including postage, per single copy of an issue (or part) of Fluoride; and hard bound annual volumes containing the four issues for the year: US$100 (payable in advance for annual volumes). The 35-year Cumulative Author and Subject Indices 1968-2002 are contained in Vol 35:4:Part 1 and Vol 35:4:Part 2 respectively. Send payment as detailed in the subscription information.

MANUSCRIPTS, including papers presented at ISFR conferences, are accepted for publication after appropriate evaluation and recommendation by qualified reviewers. Send or (preferably) email manuscripts (as Word attachments) to Prof Emeritus AW Burgstahler, Editor, Fluoride, 1620 Massachusetts Street, Lawrence, KS 66044-4254, USA (E-mail: awburg@ku.edu). For detailed instructions for submitting papers, visit our website http://www.fluoride-journal.com/papers.htm or refer to Fluoride 2003;36:73-78.

The following instructions apply to original research reports. Research reviews and discussion papers, with appropriate variations in format, are also invited.

INSTRUCTIONS TO AUTHORS: The following is only a brief summary. For detailed instructions, see Guidelines for Authors in the February 2003 issue of Fluoride 36(1), pages 73-78. Two copies of an initial version of the manuscript typed according to these guidelines, double space throughout with wide margins, should be submitted (without a computer disc), or the manuscript may be sent by E-mail (as a Word attachment) to the Editor, Prof Emeritus Albert W Burgstahler, at the address given above.

MEMBERSHIP: Researchers and others interested in fluoride research are invited to join the ISFR. Applications for membership should be sent to the Secretary: Prof Emeritus Ming-Ho Yu, 215 Bayside RD, Bellingham, WA 98225-7700, USA. (E-mail: yuming_ho1928@hotmail.com). For the year 2003 the membership fee, which includes subscription to the journal, is the same as the subscription schedule above.
