

THE INTERNATIONAL SOCIETY FOR FLUORIDE RESEARCH INC.

The International Society for Fluoride Research was founded in 1966 at a meeting in Detroit of the American Society for Fluoride Research to promote the sharing of scientific information on all aspects of inorganic and organic fluorides. This goal is being met by publication of the peer-reviewed quarterly journal *Fluoride* and sponsoring international conferences. The first ISFR conference was held in Frankfurt, Germany in 1967 and subsequent conferences have been held in Spain, Austria, the Netherlands, England, the United States of America, Switzerland, India, Japan, Hungary, China, Poland, New Zealand, and Canada.

The fifth announcement for the XXXIst ISFR conference, to be hosted by Assistant Professor Amir Mavhi in Tehran, Iran, on October 18–21, 2013, is published in this issue of *Fluoride* on pages 101–102. Further details were given in the second announcement in *Fluoride* 2012;45(4):317–320 and on the conference website: www.isfr.ir. The second announcement and call for abstracts for the XXXIInd ISFR conference, to be hosted by Dr Sunsanee Rajchagool in Chiang Mai, Thailand, on November 25–28, 2014, is published in this issue of *Fluoride* on page 103. The XXXIIIrd conference in 2016 is planned for Hyderabad, India, with Dr Arjun Khandare the host.

Fluoride is an open access journal available free at no charge on the internet at <http://www.fluorideresearch.org>, .com, and .net, in full text without an embargo period.

Subscription to *Fluoride* in hardcopy and attendance at the conferences are welcomed for all interested in fluoride research. *Bona fide* fluoride researchers are invited to apply for Membership in the ISFR.

The new editorial structure for *Fluoride*, with Regional Editors, announced in the report of the XXXth ISFR conference, September 5–8, 2012, Szczecin, Poland, *Fluoride* 2012;45(3 Pt 2): 225–230, is described in *Fluoride* 2013;46(1):40–8.

The Society does not hold an official position on issues such as water fluoridation but encourages, through its conferences, and the publication of papers, commentaries, and letters to the editor, a critical examination of the scientific basis of the views which are held by individuals and organizations.
