THE INTERNATIONAL SOCIETY FOR FLUORIDE RESEARCH INC.

The International Society for Fluoride Research was founded in 1966 at a meeting in Detroit of the American Society for Fluoride Research to promote the sharing of scientific information on all aspects of inorganic and organic fluorides. This is done by publication of the peer-reviewed quarterly journal Fluoride and sponsoring international conferences. The first ISFR conference was held in Frankfurt am Main, Germany in 1967 and subsequent conferences have been held in Spain, Austria, the Netherlands, England, the United States of America, Switzerland, India, Japan, Hungary, China, Poland, New Zealand, Canada, and Iran.

The fifth announcement and call for abstracts for the XXXIIInd ISFR conference, to be hosted by Dr Sunsanee Rajchagool in Chiang Mai, Thailand, on November 25–28, 2014, is published in this issue of Fluoride on page 93. The XXXIIIrd conference in 2016 is planned for Hyderabad, India, with Dr Arjun Khandare the host.

Fluoride is an open access journal available free on the internet at http://www.fluorideresearch.org, .com, and .net, in full text without an embargo period.

Subscription to Fluoride in hardcopy and attendance at the conferences are welcomed for all interested in fluoride research. Bona fide fluoride researchers are invited to apply for membership of the ISFR.

The Society does not hold an official position on issues such as water fluoridation but encourages, through its conferences, and the publication of papers, commentaries, and letters to the editor, a critical examination of the scientific basis of the views which are held by individuals and organizations.

FLUORIDE QUARTERLY JOURNAL OF THE INTERNATIONAL SOCIETY
FOR FLUORIDE RESEARCH INC.

Fluoride, Quarterly Journal of the International Society for Fluoride Research Inc., is
published four times a year (January-March, April-June, July-September, and October-
December), in both print (ISSN 0015-4725) and online (ISSN 2253-4083) and contains
peer-reviewed scientific reports on agricultural, analytical, biochemical, biological,
chemical, clinical, dental, ecological, environmental, industrial, medical, metabolic,
pharmacological, synergistic, toxicological, and veterinary aspects of inorganic and
organic fluorides. Publication is usually made towards the end of each quarterly period
rather than at the start of the period. The journal does not contain advertising.

Research. © 2014. All rights reserved.

Online access: Fluoride is an open access journal available without an embargo period
and with free full text at: www.fluorideresearch.org, www.fluorideresearch.com, and
www.fluorideresearch.net. Further details are given below in the section on past issues.
Articles in Fluoride can be searched for using the Google custom search on the website
by inserting, in the white box, appropriate key words such as author names, subject key
words, and dates, and clicking on the search box. The results can be cleared by clicking
on the × to the right of the search box. The search engine covers all articles on the website
including the 35-year Cumulative Author and Subject Indexes and subsequent annual
indexes. Fluoride is covered by the search engine SciFinder Scholar (from Chemical Abstracts Service) and Web of Science (from Thomson Corporation for Science Citation Index), but not, at present, through MEDLINE/PubMed.

Citation factors: The SCImago journal and country rankings for Fluoride were: SJR Indicator (2012) 0.23, H index 26, total documents (2012) 32, total documents (3 yr) 117, total references 810, total cites (3 yr) 98, citable documents (3 yr) 107, cites per document (2 yr) 0.76, and references per document 25.31 [SCImago. The Thomson Reuters Impact Factor for Fluoride for 2010 was 1 (total articles 30, total cites 624), for 2011 it was 0.824 (total articles 32, total cites 710), and for 2012 it was 0.758 (total articles 29, total cites 705) [Retrieved July 30, 2013 from http://www.bioxbio.com/if/html/FLUORIDE.html.]

Subscription to Fluoride in hard copy for 2014, is available for an annual fee, payable annually in advance, of: US$56, Canadian$59, £36, Japan¥5500, €43, Australian$60, or New Zealand$72, with a discount of 10% for copies posted to a New Zealand address, which incurs a lower postal cost. The printing and mailing of Fluoride is paid for in New Zealand dollars and, despite some increases in these, the annual fee has been kept at NZ$72 for 2014 using the exchange rates prevailing on June 25, 2013, the day when the 2014 fees were set. No subscription agency discount is available. Payment may be made in any of the currencies above. No journals will be mailed until payment is received for the current subscription or membership period. Apply to Dr Spittle, Managing Editor Fluoride, 727 Brighton Road, Dunedin 9035, New Zealand. E-mail: spittle@es.co.nz. Invoices are sent to subscribers with the last issue of each year, apart from those whose copies are ordered through a subscription agency.

Payment options for subscription to Fluoride, and the purchase of back issues are: bank transfer, cheque, cash, or PayPal. Bank transfers can be made to The Bank of New Zealand, New Lynn Branch, 3029 Great North Road, New Lynn, Auckland, New Zealand; Swift BKNZNZ22; Website: www.bnz.co.nz; Fax 64 09 827 6806; Account name: International Society for Fluoride Research; Account number 02 0184 0333239 000. Cheques should be made out to the same or to ISFR. Personal cheques, bank cheques or drafts, and cash may be posted to Dr Bruce Spittle, 727 Brighton Road, Ocean View, Dunedin 9035, New Zealand. Personal or bank cheques, and cash, in US$, Canadian$, £, €, Australian$, and NZ$ are fine provided the cheques have the account information written as a Magnetic Character Recognition Line (MCRL) at the bottom of the cheque. The technology is implemented by printing special block-like characters, 10 digits and four special symbols, in magnetic ink, which may be read automatically by machine and enables speedy checks processing. If there is no MCRL information, the cost of processing the cheque is prohibitive and cheques without MCRL are not acceptable. Cash as Japanese Yen is also fine. Please do not send Canadian or British Postal Notes, cheques drawn on Japanese banks, or cheques in US$ drawn on British banks in the United Kingdom as they cannot be negotiated in New Zealand. PayPal allows payment by Visa or Mastercard directly to an E-mail address in a secure way. It is necessary to first register with PayPal at http://paypal.com. The recipient E-mail address for the payment is spittle@es.co.nz. Just giving the credit card number to the ISFR is not sufficient.

Copies of articles and previous issues of Fluoride: Hard copies of most of the previous issues of Fluoride, including the 35-year cumulative indexes in Fluoride 2002;35(4-Parts 1 and 2), are in stock and may be ordered directly through the Managing Editor for US$12.50 or equivalent per single copy of an issue or part of Fluoride including postage. **Instructions to authors:** Manuscripts, including reports of original research, papers presented at ISFR conferences, research reviews, discussion papers, and letters to the editor, are accepted for publication after appropriate evaluation and recommendation by qualified reviewers. The initial version of the manuscript, double-spaced throughout with wide margins, should be submitted, as a Word attachment by E-mail, to the relevant Regional Editor or, when a Regional Editor has still be to appointed for the countries of residence of the authors, to the Editor-in-Chief. The E-mail addresses for these editors are given in the masthead of the Table of Contents on page i. Detailed instructions for preparing papers are at www.fluorideresearch.org and in Fluoride 2013;46(1):40-8. These instructions should be followed meticulously to avoid publication delays.

The Editorial Officers of *Fluoride* strongly support the maintenance of the highest standards of animal care and the control of discomforts to animals in research. Authors must indicate whether their institutional and national guidelines for the care and use of laboratory animals were followed. When reporting experiments on human subjects, authors should indicate whether the procedures followed were in accordance with the ethical standards of the responsible committee on human experimentation (institutional and national) and with the Helsinki Declaration of 1964, as revised in 2013, available from http://www.wma.net/en/30publications/10policies/b3/index.html. *Fluoride* follows the recommendations of the International Committee of Medical Journal Editors (ICMJE), and their Recommendations for the conduct, reporting, editing, and publication of scholarly work in medical journals, updated December 2013, and the ICMJE form for disclosure of potential conflicts of interest are available from: www.icmje.org. The recommendations describe author responsibilities for conflicts of interest, human and animal rights, informed consent, and ethical policies. The ICMJE conflict of interest disclosure form should be downloaded, completed electronically by each author, and then submitted to *Fluoride* with the manuscript. Authors should state if the ICMJE recommendations have been followed.
