BACK ISSUES

All the back issues of *Fluoride* are available:

Articles can be found by clicking on the Table of Contents for the issue or downloading the entire issue and clicking of the bookmark for the article.

For recent issues after 1998, volume 31, and some earlier issues [1969, volume 2(1,3-4); 1970, vol. 3(2,4); 1982, vol.15(4); 1992, vol. 25(4); 1994, vol.27(3,4) 1995, vol. 28(1-4); 1996, vol. 29(1-4); 1997, vol. 30(1), and 1998, vol. 31(3,4)], individual papers can be downloaded by clicking on the issue and then on the numbers, text, or rectangles highlighted in [blue](#) or [red](#) on the cover or in the Table of contents. If no blue or red rectangles are shown around the page numbers, which may occur with some browsers, please click on the page numbers. From 2011 onwards a choice is given of print quality pdf files which are higher in quality but slower to load ([blue](#) rectangles) and smallest file size pdf files which have lower quality but are faster to load ([red](#) rectangles).

Hard-copies of the issues which are also available for US\$10 or equivalent each, including postage, as detailed in the general information pages.

There may still be some "bugs" in the files and if problems are encountered please contact me at spittle@es.co.nz and I will endeavour to resolve them.
